

# DEPAUW UNIVERSITY

October 23, 2003

I am pleased to have the opportunity to recommend Mike Domitrz and his "Can I Kiss You" program. We had the opportunity to bring Mike to DePauw University in September of 2003 to address over 400 of our First Year students and also present workshops to our Resident Assistants and First year Mentors. All of the programs were a tremendous success and the feedback more than positive. The ongoing dialogue from our students and campus leaders about the program and the inspiration for internal programming ideas has been very refreshing.

I believe everyone who helped with Mike's program commented on how easy Mike and his agency were to work with. As well, all feedback about Mike's workshop, programs and book have been very positive with people wanting more of this type of programming and dialogue about relationships. Mike's program really "hit home" for students and was presented in a way they understand, appreciate and can relate to. Mike definitely set the bar higher for ongoing "relationship" programming.

On behalf of DePauw University, I am pleased to recommend Mike's programs to all college age and high school audiences. You will find Mike engaging, appropriately humorous, witty, and very interactive. I believe the most telling aspect of Mike's programs is that people leave talking about the content, exploring the lessons Mike shares. We certainly look forward to having Mike back again next year.

Sincerely,

Doug Cox  
Director of Public Safety  
DePauw University
